timber & composite windows and doors  
with straight aesthetics lines

# inspiration\_

There's nothing more exciting than having a vision. Right there at the beginning, that's when anything is possible - the time when you can dare to dream big and make something your own.

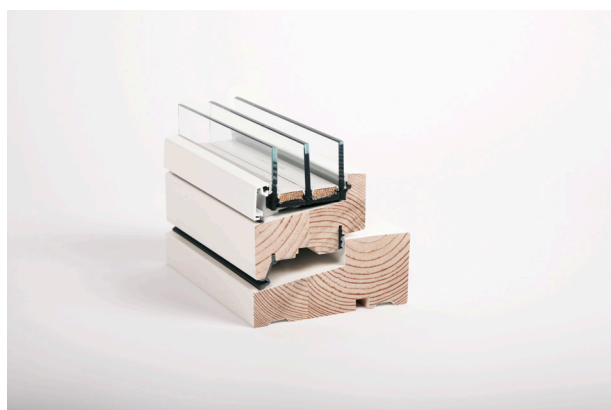

What makes us so unique is that we truly can help turn any vision into a reality. Whatever your ambitions, we'll work with you to build something beautiful, sustainable, and uniquely you. Don't believe us? Just take a look for yourself. Be inspired, every day.

Your home is unique – your windows should be too. From the way the light gathers at dawn to the flow of air during a hot summer, every element should complement your lifestyle. It's beauty without compromise.

# modern\_windows\_for \_your\_house

All of our windows are made entirely bespoke. We put the utmost care into every consideration, from colour and glazing all the way through to opening and closing functions, to create something that's perfectly suited to you. So whether you're looking for a natural look from a sustainable source or a reliable option that is purpose-built to protect your home against the elements – not to mention the wear and tear that comes with frantic family life, look no further.

# doors\_with\_style

External doors give you an exciting opportunity to create a first impression that shows your style. They welcome you and your guests and protect your home from the outside world. Our doors are made with strong, high quality materials achieving the police preferred Secure by Design accreditation to offer peace of mind for you and your family.

Whether you want to make a bold statement with your front door or bring some fluidity to your space with a sliding door, we can help to create your vision and transform your home. All of our doors are made to be entirely bespoke, with colours and styles carefully selected to suit each individual. Some of our doors can be further customised to suit your unique tastes, including different vision panel and glazing options.

VELFAC\_V200\_ENERGY

Characterised by their superb high quality and performance, our entrance doors are designed for the modern world. Made from sustainably-sourced timber, they demonstrate a high level of energy and thermal efficiency, ensuring warmth throughout the winter months and amplifying daylight all through the year.

# windows\_types

## FIXED

Bring the outdoors in with our elegant fixed light window designs. For maximised daylight and to enjoy the best views of the surrounding scenery, there can be no better choice for homeowners.

## TOP GUIDED

For something elegant, suitable for all rooms and exceptionally user-friendly, look no further than our top guided windows. This unique design combines good ventilation, daylight and ultimate style in one window suitable for any type of home.

## TILT AND TURN

Perfect for the modern home, the versatile tilt and turn window offers excellent ventilation without compromising on safety and security. Inward opening, they're incredibly easy to operate and even easier to clean, so you can worry less on maintenance and focus more on enjoying your home.

## FULLY RIVERSIBLE

This multi-functional window style is highly suitable for multi-storey buildings. Outward opening and similar to our top guided window, the sash in this case can be rotated up to 180 degrees on a horizontal axis.

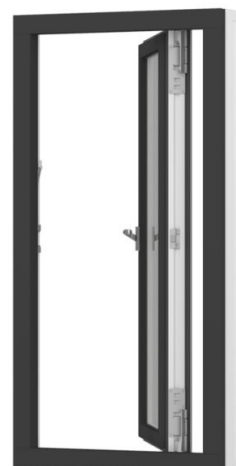

## SIDE HUNG

Outward opening with a simple and stylish design, with seamless opening function. The side hung window has a visible hinge in either the right or the left side. The friction brake allows the window to be fixed in any open position.

## SIDE GUIDED

Sleek and practical, the minimalist design of our side guided windows makes them an attractive addition to any property. Controlled by tracks and slides, they're especially ideal for use in multi-storey buildings where cleaning can only be achieved from the inside.

## SASH

Our timber sash window is designed to maintain the tradition look of a period property but have the added benefit of modern design technologies, as a result we are able to offer a window with traditional elegance, great thermal performance and enhanced security features.

YORD\_SASH146

All of our systems can be manufactured to meet the specification requirements of any project, from single glazed and slimline 12mm double glazed units, 24mm standard units all the way up to our 36mm triple glazed units offering you maximum energy efficiency and sound reduction.

## TILT & TURN

The tilt and turn door is our inward-opening design that functions in two ways. They are hinged from the side and open inwards, or, for ventilation, the leaf can be tilted. The tilt function is available on the 'master' leaf only. Complete with a large glass area for plenty of light intake, it's the ideal door for many styles of modern home.

## PATIO DOORS

Patio doors are the best option to bring the best of the outside into your home. Available as either inward or outward-opening patio doors are ideal for easy access to balconies, gardens and patios. They are designed to connect your home's indoor and outdoor space.

## SLIDING PATIO

Our sliding patio doors are designed to be as beautiful as the outdoor view they frame. Highly-energy efficient, they work to bring the beauty of your garden into your home in the summer but keep the heat and enjoyment throughout the winter.

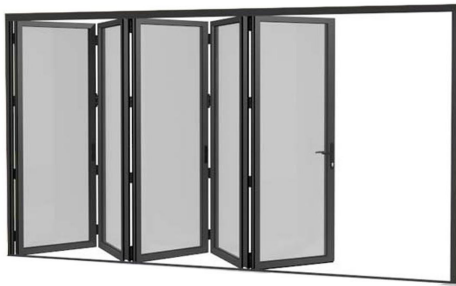

## CASEMENT/WINDOW DOOR

Our outward opening casement doors provide the perfect access to balconies, gardens and patios. The slim construction is designed to allow maximum levels of daylight and heat into your home, so you can enjoy the outdoor views and scenery without having to compromise functionality or comfort.

## BIFOLD

Our bifold doors are manufactured in FSC timber and include the options of heat treated beech, oak or mahogany. We can design them for up to 6m in length and 2.7m in height.

## GLAZED ENTRANCE

Make your entrance your own. Your front door can not only have a powerful visual impact on the overall aesthetic of your house, but also help to inspire your interior design. With the right front door, you can totally transform first impressions and the overall appearance of any property.

## FLUSH ENTRANCE

Your front door isn't just the gateway to your house – it's your home's business card. It's your way of making a first impression, to those who land on your doorstep or those who pass by. And it's your family's security – so it needs to live up to the job. Our flush entrance door does just that.

# have\_a\_vision

A folding door from Lacuna is the lift and slide door of the future, with greater opening and flexibility.

Aiming at making the best folding door in the world, we focus on insulation, tightness, safety & security and design and quality, with a life span of 30-50 years.

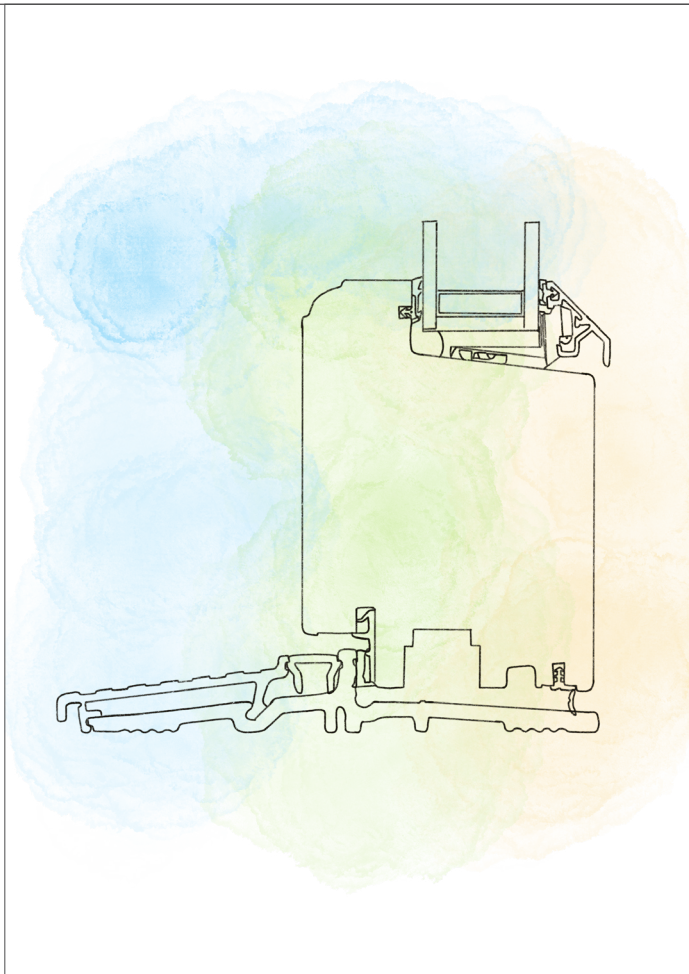

The Lacuna folding doors are made bespoke for each single project, so they meet your wishes and requirements. They can be customized and match design, style and architecture of windows and doors in any home.
